## Kids Thrive Kids as Catalysts

This year our Year 6 students are involved in the Kids Thrive, Kids as Catalysts program which equips upper primary children with the skills to identify and solve real problems facing their community through creative and collaborative projects. Young students build deep community connections and deliver tangible, real world results of which they are justifiably proud. Kids as Catalyst activates and inspires children to take an ongoing interest in community action and social justice. Currently our students are identifying their projects and preparing their pitch to a panel to seek funding to conduct the project.

## A NEW RECIPE HITS THE INDONESIAN ROTATIONS

Bu Tanya Walker introduced a new recipe to our rotations this week—called “Tum Ayam” - spiced chicken in banana leaves.

Rosie Nicholson last year planted banana trees in our Indonesian garden—they are full of beautiful banana leaves which have been used to make this delicious dish.

Tanya and Carolynne showed their prowess in the kitchen and worked with the Year 3-4 students to make this new dish—served with yellow rice and stir fried vegetables ( all of which came from our vegetable garden).

A beautiful team effort—we wish to thank our amazing parent helpers who make our time in the kitchen unforgettable, as well as Di McKenna who works so hard with students from Years 1-4 in our Indonesian vegetable garden.

We are certainly very spoilt with our authentic Indonesian meals at Avon St Campus.

## Year 9 Centre Path

Last week the Hands on Learning (HOL) students constructed a path between the Year Centre and the bus shelter. The ground was dug out by contractors and the students laid steel edging in place to retain the gravel. Five cubic metres of crushed rock was then delivered to be spread and levelled by the HOL students. Some of the grass taken from the excavated area was transplanted to cover some bare areas of ground on the adjacent lawn. Over the next year it should grow to cover more areas of bare ground so as to make the whole space more attractive.

On the 16th of May, the year 8 Outdoor class headed to Warby Ranges where we went on a 4 and a half hour hike up steep terrain. Everyone in the class loved to play a game called camouflage, it is like hide 'n' seek, but the seeker cannot move and has to call the person's name and where they were hiding to get them out. Throughout this excursion we used our newly learnt navigation and map reading skills to help us. We also had to cooperate and work as a team to figure out which path we would take. We had some minor disagreements on directions, but besides that everyone had a great day.

### Reef Hills hut building

On the 26th of May, the year 8 Outdoor class went on an excursion to Reef Hills to develop their hut building skills. We had to work in groups to build a hut. We had to use cooperation, thinking/planning skills and building skills to help us build a sustainable shelter. We all had great fun, having a laugh while working together. It was a great day filled with creativity and experience. In the end each group had developed their ideas on how to build a hut for their group, with some not completely finishing their huts. However, we now all have grand plans on how to build our next hut for survival camp.

Special thanks to Miss Felstead and Bec Robinson for taking us out for these excursions.

### Sayembara Lisan –State Finals

On Saturday 3 June, 30 students from Years 1-10 from Benalla P-12 College represented the school in the State Finals of the Sayembara Lisan (Indonesian Speech Contest) held at the Sidney Myer Asia Centre. The students had successfully progressed from the regional finals held in Benalla to the state finals. All students represented the school and themselves beautifully. In the picture are students from Avon St Campus celebrating after their oral exam had finished.

My name is Edward Mentiplay-Smith and I am currently attending the School for Student Leadership at the Snowy River Campus. I have been at the camp since the start of Term 2. This camp has been an amazing opportunity and has already changed who I am. My highlight so far has been standing on a surfboard. We have done heaps of activities since we got here and have learned things like knots and how to pack a hiking bag. At the School for Student Leadership (SSL), we have to keep the area we live in clean and do duties to do this. We do this by allocating duties each day where different people are in charge of cleaning the dishes or cleaning the floors. During the day, we have three classes. These classes are when we learn about things like Cultural Diversity, Social Awareness and Decision Making. These classes are really interesting and have taught me a lot about how I think and how I manage problems. At the SSL we also have committees that manage different aspects of the community. I am currently involved in three committees, the Food for Thought committee, the T-Shirt committee and the Local Learning Project Committee. The committees all have different roles within the group and are tasked to manage certain things like timetables or name tags. In addition to the roles we have in our committees, we also have two students everyday who are the student leaders and have to organise all the students for classes and meal times. At meal times, we sat around the table and ate our meals as a family. It is a great time to socialize and is an important part of being part of the SSL community. At the SSL, we all share a room with a roommate from Melbourne. The community here is wonderful and we all embrace everyone's individual strengths and views.
